Mission Statement

The International Society for CNS Clinical Trials and Methodology (ISCTM) is a multi-disciplinary independent organization, devoted to promoting advances that address strategic clinical, regulatory, methodological **and policy** challenges that arise in the development and use of CNS therapeutic agents. This work is accomplished through partnership with persons in academia, industry, government, **policy-making**, and the public.

- Active participation is strongly encouraged
 - Questions and solutions provided by audience are key to promotion of better methodologies
 - New approaches explored in this meeting
 - Workshops
 - Extensive use of videoconferencing
 - Efforts to increase publications resulting from meeting
-
-

Housekeeping

- Turn off pagers and cell phones (or turn to vibrate)
- Complete evaluation forms

WELCOME

2009 AUTUMN CONFERENCE

5-6 OCTOBER 2009

OLD MISSION STATEMENT

The International Society for CNS Clinical Trials and Methodology (ISCTM) is a multi-disciplinary, independent organization devoted to addressing strategic clinical, regulatory, and methodological challenges that arise in the development and clinical use of CNS therapeutic agents through partnership with industry, academia, governmental and non-governmental agencies and the public.
