

# 2021 Autumn Conference including Joint Day with ECNP

Presidential Welcome  
Ramy Mahmoud, MD, MPH

# Mission Statement

---

The International Society for CNS Clinical Trials and Methodology (ISCTM) is an independent multi-disciplinary organization devoted to promoting advances in, and dissemination of, clinical research methods related to development and use of CNS therapeutics. The ISCTM accomplishes this by bringing together international stakeholders representing academia, industry, government, payers, policymakers, and the public to address strategic clinical, regulatory, and policy challenges in clinical research.

# ISCTM Culture

*Our culture supports our clinical research mission*

---

- Independent means service to all
  - Non-commercial, non-promotional, pre-competitive, collaborative
- Interdisciplinary means welcome inclusion and contributions from anyone intellectually vested in clinical research
  - Welcome disciplines include Physicians, Statisticians, Psychologists, Psychometricians, Epidemiologists, and more
  - Welcome international stakeholders include Regulators, Academia, Industry, Payers, Government, Policy-makers, Healthcare Providers, Patient Advocacy, and the Public
- Fearless conversations promote exploration, learning, progress
  - Supported by environment of respect and professionalism, openness, sincere desire to learn and to teach and, not least, of fellowship and friendship
- We value and encourage active and vigorous participation
  - Ample time for discussions; many forums for interaction

Thank You to...

Thank You  
colleagues  
and members  
for your  
leadership  
and active  
contributions

- Our society could not be so active and accomplish so much without an engaged membership *“leading through service”*
- Our community culture of mission-focused friendship depends on commitment and contributions from members who respect one another and our shared culture
- Remembering our higher-order purpose to advance the building blocks of clinical research science, we are depending on each of you to bring your active voice to our interactions and discussions - during this meeting and always
