

10th Anniversary Annual Scientific Meeting

International Society for CNS Clinical Trials and Methodology

18 – 20 February, 2014

Washington, DC

The International Society for CNS Clinical Trials and Methodology (ISCTM) is a multi-disciplinary independent organization, devoted to promoting advances that address strategic clinical, regulatory, methodological and policy challenges that arise in the development and use of CNS therapeutic agents. This work is accomplished through partnership with persons in academia, industry, government, policy-making, and the public.

Principles

- Improving the lives of our patients through excellent science
- Many stakeholders
 - Patients, Clinicians, Investigators, Statisticians, Regulators, Policy-makers, Public
- International
- Non-commercial, non-promotional
- Mutually critical
- Mutually respectful
- Pre-competitive and/or collaborative

- Active participation is strongly encouraged
 - Questions and solutions provided by audience are key to promotion of better methodologies
 - Ample time for discussion, when problems can get solved collaboratively
 - Not debate for its own sake; we have serious work to do, problems to solve and patients who suffer
- Approaches utilized at this meeting
 - Plenary sessions
 - Workshops/Working Groups
 - Poster Session
 - Efforts to increase publications resulting from meeting (*Innovations in Clinical Neuroscience*)

- George Awad
- Larry Alphas
- Ravi Anand
- George Garibaldi
- Richard Hartman
