

Workgroup on International Clinical Trials

- Discussed final draft of WG product which is a Guidance Document on cultural adaptation of Clinician Rated Outcome Measures in International Clinical Trials
- This Guidance Document will be submitted for publication in Innovations in Clinical Neuroscience journal
- The Guidance document will form the basis for a session at ISCTM/ECNP Joint meeting in Autumn 2017
- Group discussed next area of focus and product and came to consensus
- This will be a guidance document on challenges in conducting international clinical trials in neuroscience
