

Prevention Trials in Alzheimer's Disease Design Considerations Working Group

Agenda
20 February 2018

4:25 pm **Introduction:** *Holly Posner, MD*

4:30 pm **Rapid overview of recent Alzheimer's Trials** *Philip D. Harvey, Ph.D.*

4:45 pm **Hyperbaric Oxygen and it's rationale for use in Alzheimer's disease** *Kristina A. McLinden, PhD*

5:00 pm **(A Novel Cognitive Stress Test for Clinical Trials in Early Alzheimer's disease: Relationship with Imaging Biomarkers in Diverse Cultural Groups** *Rosie Curiel, Ph.D.*

5:15 pm **NIA's New Clinical Trial Initiatives** *Laurie Ryan, Ph.D.* (not presented)

5:30 pm **Panel discussion with questions from the working group / wrap up**

Summary

The four presenters made brief presentations that were followed by discussion. (Dr Ryan was unable to attend due to illness.)

The working group decided that they will start work on a publication based on the last three meetings.

The October meeting in Marina Del Rey will be focused on a progress-based update.

The Paper will be completed by the end of 2018 and the future of the working group will depend on new developments in the next year.
