- Weill Medical College of Cornell University
- His work heavily influenced the finding and acceptability of new drugs and treatments for mental illness
- Distinguished founding member of ISCTM

# Janet B. W. Williams, PhD

**2019 Andrew C. Leon Distinguished Career Award Recipient**

# Janet B. W. Williams, PhD

---

- She has been a leader in the development of instruments that have improved our ability to assess and diagnose patients in clinical trials and for developing tools for training individuals who carry out clinical ratings
- She has been an enthusiast for developing better assessment instruments for assessing symptoms of psychiatric disorders
- She has been a strong mentor for training new researchers and helping build enthusiasm for this work in them
- Since its foundation, she has been an enthusiastic supporter of ISCTM and has valuably contributed to many of its activities at meetings, posters and workgroups
